

Product Data Sheet

Cartridge Filters DCE Siloair Replacement Part

OVERVIEW

■ CCT offer these custom-made, high quality filter cartridges as economic alternatives to DCE Siloair original supply. They are a direct size-for-size replacement. No modifications to your standing plant are necessary, when the time comes to change your filters - slide out the old and save money by slipping in new CDK 230 replacements.

Using similar materials and technology, the CDK 230 offers commensurate performance and longevity with appreciable savings in cost. Features include moulded-in star-pleated 806 filter media to optimise the area of filtration and cleaning efficiency.

Available in the same two length options as the original equipment, the only way you'll spot the difference is when you pay the bill!

Part Number	Dimn. A	Dimn. B	Area
CDK230X565	565mm.	547mm.	2.58
CDK230X760	760mm.	742mm.	3.5

Area shown above is the total area of filtration per cartridge and is in square metres.
